North Shore Hosts multicultural fair

MIAMI - Administrators, physicians, and employees celebrated the various cultures at North Shore Medical Center with a Multicultural Fair.

"The Multicultural Fair was a beautiful event and we are happy to continue in our annual tradition," said Manny Linares, CEO of North Shore Medical Center. "The energy and enthusiasm that went into the preparations of the displays and native cuisine of each culture represented was just amazing. The fair is a great way to bring our employees together and educate each other on our various cultures."

The fair was a great success with employees representing the countries of Trinidad and Tobago, Cuba, Bahamas, Puerto Rico, Dominica, Nicaragua, Haiti, Dominican Republic, Jamaica, Africa and the United States.

Employees representing their native country provided food samples of some of the most popular cuisine as well as historical artifacts such as costumes, headpieces, wood carvings, pottery, currency, music, videos and posters.
