

## North Shore Medical Center Hosted Preemie Reunion Party for Babies Born and Cared For At North Shore Medical Center

August 7, 2011

**MIAMI** - North Shore Medical Center, a 357-bed acute care hospital in Miami, hosted a preemie reunion party on Sunday, June 26th for all babies born at North Shore Medical Center and cared for in the Neonatal Intensive Care Unit (NICU). Over 50 families attended and were able to reunite with NICU staff and physicians at North Shore who cared for them or their family for the past 26 years.

"It was an honor to welcome back so many families we have cared for through the years," said Manny Linares, CEO of North Shore Medical Center. "Having families reunite with our staff and physicians is exciting – it's wonderful to see how our staff interact with young adults that they cared for as tiny babies."

Guests were treated to entertainment, face painting, refreshments and of course, time to mingle. North Shore Medical Center's NICU is the only Level III NICU in Northern Miami-Dade County. Services include 24-hour coverage of certified neonatologists, perinatologists, specially trained and certified neonatal nurses and respiratory therapists, advanced pediatric care, board certified neonatal surgeons and pediatric specialists.
